

(1) Application for permission to file export information on a monthly basis may be made directly to the Foreign Trade Division, Bureau of the Census, Washington, D.C. 20233, with a copy sent to the Office of Export Administration, International Trade Administration, Washington, D.C. 20230.

(2) Authorization will be issued only when in the judgment of the Bureau of the Census complete and accurate information will be available on a monthly basis from the records of the applicant, and where the exemption from the filing of a Shipper's Export Declaration for individual shipments represents a reduction of reporting procedure in the individual case. (In general, these special reporting procedures will be limited to shippers who, on a continuing basis, make at least twenty (20) shipments per month out of an individual port by each of any one or more methods of transportation, and who are able to furnish summary data each month in all the detail required for statistical processing in terms of the various classifications and cross-classifications now required for statistical purposes, such as commodity data by port, by method of transportation and/or by name of carrier.) Where export control is a consideration, such authorizations will be granted when in the judgment of the Office of Export Administration the applicant also has demonstrated that it has established adequate internal operating procedures and has taken other satisfactory safeguards to assure compliance with Export Administration Regulations without government review of individual declarations.

(3)(i) Procedures for clearing individual shipments through Customs without the presentation of a declaration, and the exact type of monthly or other report to be delivered, will be discussed and specifications developed in connection with each application.

(ii) Such authorizations will be subject to the requirement that declarations or other approved summarizations containing the necessary statistical information for all such shipments made during a given month will be submitted no later than the fifth working day of the month following the month of export. Moreover, records

must be maintained in such a manner that the Bureau of the Census, the Office of Export Administration, or the U.S. Customs Service may, if desired, verify that a given shipment was, in fact, included in a particular monthly report.

(c) Authorization for the filing of monthly declarations or other summarizations under paragraphs (a) and (b) of this section may be terminated at any time.

(d) Part 386 of the Department of Commerce Export Administration Regulations contains complete information on the requirements of the Office of Export Administration in connection with the granting of authorizations for the filing of monthly summaries of export shipments.

(e) Exporters (or their agents) of merchandise for storage in Canada but ultimately destined for third countries, the specific country of destination being unknown at the time of exportation to Canada, must report statistical information directly to the Bureau of the Census in lieu of filing individual Shipper's Export Declarations for each shipment. The information must be submitted in a format and on a time schedule approved by the Bureau of the Census. The information required will be no more detailed than that which would be reported on a Shipper's Export Declaration.

#### **§ 30.40 Single declaration for multiple consignees.**

As a further exception to the requirements of § 30.6, shipper's are authorized, subject to the approval of the Customs Director, to file one Shipper's Export Declaration (in duplicate) for all shipments, other than those made to U.S. Government agencies, offices, establishments, or representatives of any of these which are laden on one vessel or aircraft and destined to go to one port in Puerto Rico, the Virgin Islands of the United States, or the Canal Zone. For such shipments no consignee information needs to be furnished whether such shipments are made to one or several consignees.

[41 FR 42645, Sept. 28, 1976]

**§ 30.41 “Split shipments” by air.**

When a shipment by air covered by a single Shipper's Export Declaration is divided by the exporting transportation company at the port where the declaration is filed, and part of the shipment is exported on one aircraft and part on another aircraft of the same transportation company, the following procedure shall apply:

(a) The carrier will deliver the manifest copy of the declaration to the District Director of Customs with the manifest covering the flight on which the first part of the split shipment is exported, and will make no changes on the declaration. However, the manifest will show in the “number of packages” column the actual portion of the declared total quantity being carried and will carry a notation to indicate “Split Shipment.”

(b) On each subsequent manifest covering a flight on which any part of a split shipment is exported, a prominent notation “SPLIT SHIPMENT” will be made adjacent to the item on the manifest for ready identification. For the last shipment the notation will read “SPLIT SHIPMENT, FINAL.”

Each subsequent manifest covering a part of a split shipment shall also show in the “number of packages” column only the merchandise carried on that particular flight and a reference to the total amount originally declared for export, e.g., 5 of 11, or 5/11; and immediately following the line showing the portion of the split shipment carried on that flight, a notation will be made showing the air waybill number shown on the original Shipper's Export Declaration and the portions of the originally declared total carried on each previous flight together with the number and date of each such previous flight, e.g., original Shipper's Export Declaration AWB 123; 2 of 11 flight 36A, June 6; 4 of 11, flight 40X, June 10.

(c) Export declarations will not be required for these subsequent shipments.

**Subpart D—Exemptions from the Requirements for the Filing of Shipper's Export Declarations****§ 30.50 Procedure for shipments exempt from the requirements for Shipper's Export Declarations.**

Except as provided below, where an exemption from the requirement for the filing of a Shipper's Export Declaration is provided in this subpart, a notation describing the basis for the exemption shall be made on the bill of lading, air waybill, or other loading document for carrier use, with a reference to the number of the section in this part where the particular exemption is provided so that the carrier at the time of lading, and the Customs Director at the time of exportation, may verify that no declaration is required. If none of the above named documents is used, the person transporting the merchandise must be prepared to identify to the Customs Director at the port of exportation, at the time of exportation but prior to departure, any merchandise which is exempt from the requirement for the filing of a Shippers' Export Declaration and explain to the Customs Director the basis for the exemption. Where shipments are exempt from the requirement for Shipper's Export Declarations on the basis of value and destination, the appearance of the value and destination on the bill of lading, air waybill, or other loading document for carrier use, shall be acceptable as evidence of the exemption, and no reference need be made to the particular section of these regulations where the exemption is provided.

**§ 30.51 Government shipments not generally exempt.**

Except as provided below in this subpart, Shipper's Export Declarations are required for exports by or to U.S. Government agencies, whether or not shipped on a Government bill of lading. No general exemption is provided for Government shipments, as such.
